CERTIFICATIONS

- Alx Software Engineer Certificate
- Computer Science Certificate
- Cyber Security certificate

PROFESSIONAL EXPERIENCE

Full Stack Developer

Radical X Company | 2023 - Present

- Developed a web application that allows users to create and share online quizzes using Python, Node.js, Express.js, React.js, and MySQL.
- Created and maintained the database schema, models, and queries using MySQL and Sequelize ORM.
- Implemented authentication, authorization, and security features using JWT, bcrypt, and helmet.
- Deployed the application to Azure and configured the DNS, SSL, and CDN.
- Received positive feedback from users and clients for the application's functionality, performance, and design.

ALX Intern

Holberton Inc. 2022 - 2023

- Collaborated with cross-functional teams to design and implement robust and scalable full-stack solutions.
- Developed and maintained web applications using Python, Node.js, React.js, and Next.js.
- Implemented RESTful APIs for seamless communication between frontend and backend components.
- Designed and optimized SQL and NoSQL databases to ensure efficient data storage and retrieval.
- Utilized Git for version control, actively participating in Agile development processes.
- Led the development of a customer-facing e-commerce platform, contributing to a 20% increase in online sales within six months.
- Integrated third-party APIs for payment gateways and authentication services to enhance application functionalities.
- Conducted code reviews to ensure code quality, adherence to coding standards, and knowledge sharing within the team.
- Collaborated with UX/UI designers to create responsive and user-friendly interfaces, enhancing overall user experience.
